Rob,

Hi and hope you had a good weekend.

To follow up on your earlier email, what indication do you have that there is a "separate NYPD file" for Lawyer? Please reference where you see that.

I am following up on your request re #2 below.

Re D751 and 754, they are internal draft memos that were not finalized or approved, and thus have been redacted.

Re D771, there was no video maintained, and upon information and belief, may never have been in the possession of the NYPD, but rather a video from another source, e.g., NYCHA. Defendants can furnish an affidavit regarding same to the extent necessary.

The attachments to the DD5s were in fact produced. I can walk you through whatever you have questions on in regard to the DD5s and attachments.

Also, I have an email forthcoming to you regarding medical releases I will need from Ms. Simmons in order to obtain certified copies of her medical records. I can ask Judge Bulsara to order them by a date certain, unless you think you can get them to me within a week or so. Please advise.
